Raise Me Up

Melissa Krahnke

My secret love
Keeps me awake at night
My secret love of the man
My secret fightThey put you down
They pushed your face down
They fucked you over and around
You kissed the groundOoh raise me up
I forgot to dance your name
Ooh raise me up
I will never dance againYou're the one
I waited for your return
I slept with rocks
I slept with stones
Stone was my homeEnergy
Life danced right out of me
When my father busted you free
He also killed meOoh raise me up
To dance upon your head
Ooh raise me up
To dance in the holes of your headTo dance in the cavities of
Your eyes
