Crash My Party

Luke Bryan

It don't matter what plans I've got I can break 'em
Yeah I can turn this thing around at the next red light
I don't mind telling all the guys I cant meet them
Hell we can all go raise some hell any other night
Girl I dont care I just gotta see what you're wearing
Your hair is pulled up or falling down
I just have to see it now
If you want to call me, call me, call me
You dont have to worry 'bout it baby
You can wake me up in the dead of the night
Wreck my plans that's alright
This is a drop everything kinda thing
Swing on by I'll pour you a drink
The doors unlocked I will leave all the lights on
Baby you can crash my party anytime
Ain?t a spot downtown that?s rockin? the way that you rock me
Ain?t a bar that can make me buzz the way that you do
I could be on the front row of the best show
And look down and see your face on my phone
And I?m gone, so long, hang on

I?ll meet you in a minute or two
If you wanna call me, call me, call me
You don?t have to worry ?bout it baby
You can wake me up in the dead of the night
Wreck my plans, baby that?s alright
This is a drop everything kinda thing
Swing on by, I?ll pour you a drink
The door?s unlocked, I?ll leave on the lights
Baby you can crash my party anytime
If it?s two in the mornin? and you?re feelin? lonely
And wonderin? what I?m doin?
Go ahead and call me, call me, call me
You don?t have to worry ?bout it baby
You can wake me up in the dead of the night
Wreck my plans, baby that?s alright
This is a drop everything kinda thing
Swing on by, I?ll pour you a drink
The door?s unlocked, I?ll leave on the lights

Baby you can crash my party anytime
Baby you can crash my party anytime
