

# All To Myself

## Marianas Trench

I don't patronize, I realize  
I'm losing and this is my real life  
I'm half asleep and I'm wide awake  
This habit is always so hard to break I don't wanna be the bad guy  
Been blaming myself and I think you know why  
I'm killing time and times killing you  
Every way that I do Did you say please just follow me?  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else Please just follow me  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else I'm under the gun, you're like the only one  
I just can't decide what I'm running from  
This isn't what I wanted but  
I can't keep my filthy fucking mouth shut It's not enough, it's never enough  
And I wish I could breathe without getting it stuck  
Can't focus it but I try it over and over again Did you say please just follow me?  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else Please just follow me  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else Please just follow me  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like Did you say please just follow me?  
I thought you wanted me 'cause I can't stay with someone else  
I try and suck it up, I just keep fucking up  
I want you all to myself Did you say please just follow me?  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else
