Rubber Rocket

Electric Six

Remember when you walked into my life all dressed up in leather?
Remember when you whispered to me we should always be together?
But girls like you ruin the future
Girls like you ruin my life
Girls like you make guys like me make love to a computerEvery night's another nightmare
And I can't wake up
I go bananas
And every time I see your face
I self destructRemember when you told me that you wanna ride the rubber rocket?
Remember when you told me that you want to
Plug my plug into your socket?
But girls like you turn into witches
Girls like you turn into beasts
Girls like you find guys like me and eat our vital organsEvery night you're the monster
Living underneath my bed
I go bananas
And every time I see your face
I'm better off deadThis is what I turn into when I get really hungry
Man become machine and machine becometh monkey
This is what I turn into when I get close to you
When I get close to youEvery night's another nightmare
And I can't wake up
I go bananas
And every time I see your face
I self destruct
