

# You and I

Enrique Iglesias

You and I  
In a field  
Full of stars

We can hide  
From the world  
If we want

All I need is your hand  
And your heart

Let's be free  
Run away from it all

Just you and I...

Here we are  
Face to face  
One more time

In the light  
In the dark  
We will shine

There's nobody, we're alone-lone-lone  
Take all of your worries, let them go, let them go  
I'll bring you to a place that only we know tonight

Just you and I...

All I need is your hand  
And your heart

Let's be free  
Run away from it all

Oh, we go higher baby...
