All the fatal memorys you've been counting in yo head for time

I like to get high I get drunk and I might let it slide  
Catch me on a zanax different atmosphere, its do or dieWalkin' in the club fucked up, mission to take yo bitch  
Hopin' you gonna speak of one word, when I approach yo bitch  
Tracy don't suck dick but I bet I can deep throat the bitch  
Just fuckin' wit ya, got my own, I really don't want yo bitchNothin' but mumblin', and I'm stumbling, but I'ma  
keep on the bumpin'  
And I bet this gotcha Caprice Classic trunk a fuckin' rumblin'  
Fuckin' wit' me getcha trampled Lemon Lime is an example  
He got beat down by these dogs, and all he got was just a sampleBut now I'm on my way to better things  
No more runnin' about the cove wit' the glock cocked  
And slangin' Mary Jane  
I got a well focused head and well educated brain  
And plus my vision see clearer than X-ray glasses main  
So fuck you mean?(Sniff sniff)  
Don't be fuckin' wit these killers on that good dope

Getcha dawgs off me move bitch  
Getcha dawgs off me move bitch  
Getcha dawgs off me move bitchLast time I'm tellin' ya lyrically beat ya  
Standin' ovation, I'm comin' to seat ya  
I would drive the full 40 hours to California to defeat ya  
Creature-feature but I ain't scared, rippin' out a patch of hairTryin' to convince me that you crazy, verbally this  
isn't fair  
Ask me if I fuckin' care, shut the fuck up breathe the air  
Didn't ask you to open yo mouth, don't make me come over there  
Platinum products get dropped daily up out this facilityI'll drop my shit on ya thinking everywhere ya feelin' me  
Watch me come up out the grave and capture yo security  
Beat ya down like you stole something man that's for fuckin' wit' me  
Make ya shit yo pants so bad that you can plead insanityHave you strapped in a straight jacket yackin' 'bout yo  
family  
Really cause and effect is what gets us in these crooked binds  
Plus the lack of respect or neglect towards these simple minds  
Keep the system tickin', itchin', for corruption on the rise  
I'm getting tired of sittin' here, and you can see it in my eyes(Sniff sniff)  
Don't be fuckin' wit these killers on that good dope  
(Sniff sniff)
