Delight

Court Yard Hounds

Baby, can't you see
You don't have to
Try so hard with me
Baby, can't you see
You don't have to
Talk so loud to meI'll make some time
When you're around
Just come on by
Just come on byTake a chance on me
'Cause you know
And I know
We're on our wayTo something new under the sun
Something new under the sun
Something new under the sun
Something new under the sunAnd baby, can't you see
You don't have to use that line on me
And baby, can't you see
You won't ever waste your time on me'Cause I'll ease your mind
When you're down
Just come on by
Just come on byTake a chance on me
'Cause you know and I know
We're on our wayTo something new under the sun
Something new under the sun
Something new under the sun
Something new under the sunSomething new under the sun
Something new under the sun
Something new under the sun
Something new under the sunWhen I look to the sky
And a spark from your eyes
Lights up the night
My heart is on fire
As our two universes collideYeah, we have arrived
Animation becomes your life
Celebration of something so right
The creation in perfect time
Something new under the sun
