

Never Be The Same

One Night Only

You see colors fly around your head
And you don't know why, you don't know why
You call out his name and what's left unsaid
And you don't know why, you don't know why And with all these clouds high above you
I guess it's gonna rain
And there's no one left to love you
It will never be the same, it's never been the same Someone said his name and it broke your hearts
And you don't know why, you don't know why
You look up at the sky while you kneel and pray
And you wonder why, you don't know why And with all these clouds high above you
I guess it's gonna rain
Now there's no one left to love you
It will never be the same, it will never be the same All alone you count the days
And all you know just flies away
All in favour, scream it wide
Just plead your head to love or cry
And say goodbye Someone said his name and it broke your hearts
And you don't know why, you don't know why And with all these clouds high above you
I guess it's gonna rain
Now there's no one left to love you
It'll never be the same, it'll never be the same It's never been the same, it's never been the same
It's never been the same, it's never been the same
It's never been the same, it's never been the same
