She's On Fire

Craig David

She's on fire
Ohhh, Awww yeah
Told you before baby
Verse 1
She's hot, hot
This ain't your typical pretty
Sexy and witty
Smashin' it in every city
Cause (She's hot)
Bump up on it
Faces the lick
And she's know it, 'Cos she be looking (wicked this year)
She's hot-ter than anything you screwed
Ain't tryna be rude, dude
She's straight finger lickin' like soul food (She's hot)
So nonchalant
Ain't gotta front
Cos a (Coca Cola bottle shape ah yes I a run de place)
Back in the day the girl they always use to laugh at
Years of growin' up with people sayin' you're fat
Found it so hard felt so alone dealin' with that
Cryin' every night she was sixteen
Whatcha say
Pics of a model and perfections made you hold back
Move in with guys be sayin' you ain't all that
Now they be wishin' they could get a piece of that
Lookin' hot for everyone to see
Chorus
She's on fire tonight
She's on fire tonight
She's on fire tonight
She's on fire, she's on fire
She's on fire tonight
She's on fire tonight
She's on fire tonight
She's on fire, she's on fire
She's on fire (She's on fire)
Fire (She's on fire)
Fire (She's on fire)

Told you before (She's hot)
Verse 2
Ain't afraid to be showin' you what she got
Exploring the spot
Specially 'cos she can drop it like (She's hot)
Fire to da street
She bringin' the heat
And she knows it, 'Cos she be lookin' (in this era) (She's hot)
Kinda girl that got you all up in a twist
You can't resist
So hot it's like she's straight takin' the piss (She's hot)
Guys be like whoa, girls you don't know
(Coca Cola bottle shape ah yes I run de place)
Yeah
Every day just tryna get up on the right track
My girl be trippin' tryna sayin' her chest was so fat
Messin' with your head till you started believing that
Wouldn't stop until it hurt so deep, then one day
Like a genie in a bottle said don't worry 'bout this whole fad
(Coca Cola Bottle shape ah)
Then grabbed your hips and hold that
Now they be wishin' they could get a piece of that
Lookin' hot for everyone to see

Chorus
She's on fire tonight, (so that she know just what you want it for)
She's on fire tonight, (the kinda looks so sick you walk alone)
She's on fire tonight, (you should be ??? if your feeling sure)
She's on fire, she's on fire, (I don't know bout you but she's on fire)
She's on fire tonight, (when she walks its to be in control)
