

# Making Waves

[Gemma Hayes](#)

Lay me down in the daylight moments  
Follow you around to your place  
And I'll just sit here and watch you Making waves, making waves  
And there is no sea at all I don't know how you do it  
So full to your belly with sand  
I could just sit here forever and watch you Making waves, oh you're making waves  
I watch you making waves  
Where there's no sea at all
