Scream

Billy Idol

Ooh yeah
You can fill my cup you can fill my bowl
This train is ready to roll, your eyes of fire
Have stole my soul
Still comin' back for more
You are the lock, I am the key
Climb up my lemon tree
You are the one, you're on your knees
You are my little queen
You know just what I mean
Climb up my lemon tree
Make me scream
All night, all night long
Gonna get extreme
All night, all night long
Make me scream
All night, all night long
Gonna get obscene
All night, all night long
All night, all night long
Pretty baby in the back of my car
Look now, you've gone too far
Have a slice of my lemon pie
One more will get you high
You wanna know, you wanna see
How much you can squeeze
You are the one, you are a tease
You love my Demon seed
You know just what I mean
Climb up my lemon tree
Make me scream
All night, all night long
Gonna get extreme
All night, all night long
Make me scream
All night, all night long
Gonna get obscene
All night, all night long
All night, all night long

Suck it
You took me in the wild
No one around for miles
You ain't too proud to beg
Juice runnin' down my leg
I want a chick who makes me feel
Hmm closer dear
I want you to be free
I want you lovin' me
I want to hear you scream
I want you just like me
Make me scream
All night, all night long
Gonna get extreme
All night, all night long
Make me scream
All night, all night long
Gonna get obscene
All night, all night long
All night, all night long
One more time now
Make me scream
You can me scream oh yeah
Make me scream
All night, all night long
Gonna get obscene
All night, all night long
All night, all night long
