

With You in Mind

[Paul Carrack](#)

With you in mind, things just ain't bad as they seem

With you in mind, I can fill my wildest dreams

With you in mind, I can do anything, I know I can

With you in mind

With you in mind With you in mind, I went out looking for the best

With you in mind, cause you deserve nothing less

With you in mind, I've done so many things that love can bring

With you in mind

With you in mind Like a flower drinking from the falling rain Or the same rain that could wash it away

Gives it strength, gives it water

And before you know, another day Like a flower drinking from the falling rain

Or the same rain that could wash it away

Gives it strength, gives it water

And before you know, another day Like a flower drinking from the falling rain

The same rain that could wash it away

Gives it strength, gives it water

And before you know, another day
