I Want to Believe

LCMDF

When will I die, when will I marry?
Why do I cry for nothin' sometimes?
Why do I feel like I'm in a hurry?
Feels like a race and I'm out of time
Like a lover turnin' into a friend
Somewhere a heart is gettin' broken again
How does the whole thing end?I want to believe in somethin' for real
I want to believe in somethin' I feel
I want to believe, it's all that I need
I wanna believeWho will be king and who will be beggar?
When will I have this mystery solved?
Who said a ring could mean love forever?
Nothin's for sure except growin' old
Will I always be here spinnin' my wheels
Or does misfortune have a hand in the deal?
Is that how my fate is sealed?I want to believe in somethin' for real
I want to believe in somethin' I feel
I want to believe, it's all that I need
I wanna believe
I wanna believe
Love has a chance to survive the dream to be as one
I wanna believe in a nurturin' love and not just a sacrificeWhere is my home and where am I going?
When will I know and how will I know?
I had a lover who turned into a friend
I had a heart but it got broken again
And I don't know if it ever will mend
Is this how the whole thing ends?I want to believe in somethin' for real
I want to believe in somethin' I feel
I want to believe, it's all that I need
I wanna believe
I want to believe
I want to believe
I want to believe
