Tidal Wave

Sub Focus

You can't just give it away
Like it means nothing
Love isn't this game where
You win somethingI'm tired of being
On the outside
I wanna know
What it's like
I'm tired of seeing
All the sights
I wanna feel
Us collideYour love washes over
Like a tidal wave
I feel the impact
As we collide
Your love washes over
Like a tidal wave
I feel the impact
As we collideAll the games we play
You're fooling nobody
If it makes you feel good
When you're hurting somebodyI'm tired of being
On the outside
I wanna know
What it's like
I'm tired of seeing
All the sights
I wanna feel
Us collideYour love washes over
Like a tidal wave
I feel the impact
As we collide
Your love washes over
Like a tidal wave
I feel the impact
As we collideI feel the impact
As we collide
