

Space Ace

Peter Criss

[Verse]

Have you ever been locked in a spaceship?

 Lost in the sky

 Flying high above highways

 Still trapped in the sky

 I know the meaning of success

 Whoa, but you gotta believe

 Evil has a way of showing its fine face

 Still you gotta believe

 Time has a way of standing still for you

 Only to go up to fall down

[Verse]

Have you ever been locked in a spaceship?

 And lost in your lies

 Flying high above the highways

 Still trapped in the skies

 I know the meaning of success

 Oh, but you got to believe

 Evil has a way of showing its face

 Oh, but you got to believe

[Guitar Solo]

 So, you fly into the darkness

 Using the stars for your lights

 And you finally found your planet

 Time to set things right

[Verse]

Have you ever been locked in a spaceship?

 And trapped in a lie

 But the beauty is the truth

 You can look in your eyes

 (Monkey noise) Achk

 (Jam Out)
