

# Feelings Don't Last

## Six Part Invention

It was love at first sight  
But what is it now  
Im sick and tired  
Of everything  
I thought it was rightI just want someone  
Who will light my day  
I just want to find the one  
But not the tears  
To come running downI was naive of falling in love  
Didnt know how is should be  
But now i know it hurts  
I was naive of falling in love  
I wasnt prepared for this  
I guess with you feelings dont lastIts all been said  
And done  
We cant fix it now  
I am not perfect  
Never will we beI just want someone  
Who will light my day  
I just want to find the one  
But not the tears  
To come running down[Repeat 2x]  
I was naive of falling in love  
Didnt know how is should be  
But now i know it hurts  
I was naive of falling in love  
I wasnt prepared for this  
I guess with you feelings dont lastFeelings dont last  
Feelings dont last...
