Last Stand

Erik Ekholm

I'm all alone, you're far away
Never learned from my mistakes
I should have known just what to say
To make you want to stay
You were always the one givin'
I was always there to take it
Take your heart and break it
Ohhhh
And I'll never make it without you
I need a second chance
'Cause I want to make it about you
I'll make it my last stand
It took a moment to say
It wasn't you it was me
I couldn't let you in
Now I'm ashamed I pushed you away from me
Now I'm afraid it's too late to save again
Miss you the most when I sleep
(When I sleep)
Turn the nightmares into dreams
Can't lose hope
It's killing me
(Killing me)
I'm the one who made you leave
But if I just take a chance now
Open up and finally reach out
(Reach out)
Can I save it all somehow

Ohhhhh
And I'll never make it without you
I need a second chance
'Cause I wanna make it about you
I'll make it my last stand
It took a moment to say
It wasn't you it was me
I couldn't let you in
Now I'm ashamed I pushed you away from me
Now I'm afraid it's too late to save again

Ohhhhh
I'm all alone, you're far away
I finally found the words to say
Ohhhh
And I'll never make it without you
(Sorry for the way I shut you out)
I need a second chance
'Cause I wanna make it about you
(Sorry for the way)
I'll make it my last stand
It took a moment to say
It wasn't you it was me
I couldn't let you in
Now I'm ashamed I pushed you away from me
Ohhhhh
(I couldn't let you in)
Now I'm afraid it's too late to save again
Ohhhhh
Won't be afraid won't push you away
