

# Think It Over

[Steve Earle](#)

You're here, you're gone  
I'm still hangin' on  
This game ain't nothin' new You've changed your mind  
So many times  
I'm still in love with you  
I'll think it over when you're walkin' out the door  
Why'd you go and leave me sad and blue? And if you knew  
What I go through  
You'd think it over too I hope someday  
I'll find a way  
I'll walk right out on you Till that day comes  
I'm still the one  
If you should need a fool I'll think it over when you're walkin' out the door  
Why'd you go and leave me sad and blue? And if you knew  
What I go through  
You'd think it over, you'd think it over, you'd think it over too
