# Leave No Deed Undone

## Wolfsheim

From the moment you wake up, you cannot feel free
There are so many things in this world you can't see
Just don't keep on leaving your dreams behind
Have a heart to see, you'll get trapped in your mindNo escape
Every further steps you'll ever make
Will drive you on to me
And I will set you freeIt's like an impurity in your mind
Furtive ruin that hails from behind
Get rid of the demon that darkens your sun
Go on, go on, leave no deed undoneYou don't really depend on material plight
And the way you live it is simply not right
You just have to get rid of your own demands
Fight against yourself for a second chanceNo escape
Every further steps you'll ever make
Will drive you on to me
And I will set you freeSometimes it's so easy just to be scared
No one promised your life would be fair
There's always a reason for you to run
Away with me, leave no deed undone
Leave no deed undone, leave no deed undone
Leave no deed undone, leave no deed undoneFrom the moment you wake up, you cannot feel free
There are so many things in this world you can't see
Just don't keep on leaving your dreams behind
Have a heart to see, you'll get trapped in your mindNo escape
Every further steps you'll ever make
Will drive you on to me
And I will set you freeNo escape
Every further steps you'll ever make
Will drive you on to me
And I will set you freeNo, no, no escape
Every further steps you'll ever make
Will drive you on to me
And I will set you freeNo escape
Every further steps you'll ever make
Will drive you on to me
And I will set you free
