

# Run Forever

Emma Ruth Rundle

Come on my love and show it to me  
Never as close and there's nowhere I'd be  
Be by your side say true love  
Oh true love, just that no one can see  
If we both get caught then we'll run forever  
Come on my love take cover with me  
We can be gone and there's no one we need  
Over the day say who knows  
Well who else knows  
Yet there's no one we need  
If we both get caught then we'll run forever  
If we both go down we go down together  
If we both get caught then we'll run forever  
If we both go down we go down together  
Just as soon  
Just a force like you  
Just as soon  
Just a force passing through  
Just as soon as a little blood that's missed  
Just as soon as a kiss  
Wait for me just like that  
Wait for me just like that  
Wait for me like that  
Wait for me like that  
If we both get caught then we'll run forever  
If we both go down we go down together  
If we both run now then we'll run forever  
If we both go down we go down together
