Down

Dave Gahan

I need some company
I need you tonight
You don't have to talk to me
And don't be politeTake my body and soul
I feel so oldDown, on the ground
There's no one around
And the snow is fallingDown, on the ground
It's where I'm bound
To end up by morning, downJust lay down beside of me
You know what I like
Take what you want from me
We don't have to fightTake my body and soul
I feel so oldDown, on the ground
There's no one around
And the snow is fallingDown, on the ground
It's where I'm bound
To end up by morning, down
Oh down, oh downAnd you comfort me
Until my legs go weak
Hold me closer, we won't speakDown on the ground
There's no one around
And the snow is fallingDown, on the ground
It's where I'm bound
To end up by morning, downOh, we all keep falling
All down
And the world keeps turning
