

# The Untold

## Phereoh

It darkens our sayings  
Curses our wills  
Forces our needs  
Lessens our skillsThe untold rots our actions  
Bites our soul, peels our heart  
Digs our grave, punishes disclosure  
And never gets rattledIt's the untold, the untold  
Running up here  
Hanging about  
Running up here  
Seeding the doubtThe untold raises our greed  
Glides on the air circles around  
The dive in the shelter  
The paper one crinkles  
It's the untold, the untoldRots our actions  
Leaks our failures  
You don't believe me?
