

Party Animal

King Kobra

Yeah, wasted

Party, burr

Double deuces on the back, 21s on the front

Got that engine in the back, and the trunk is in the front

In the back of the club now, smoking on a blunt

Club packed to capacity I'm parked right in the front

From the front to the back like a zoo

(Party animal)

Wanna ball with me baby, what it do?

(Party animal)

She's a man-eater, baby, girl's a cannibal

(Party animal)

I'm a party animal, she's a party animal

(Gucci)

I'm a party animal, used to be a trafficker

Bricks up on the bus, call me the roll manager

2,00,000 cash I might put that in the Challenger

To only ride on Moreland 'cause that's my East Atlanta car

First I brought you Juice Mane

Then I brought you Flocka Flame

Gucci Mane, the boss mane

But you can call me Ice Mane
