

The Night Out

[Martin Solveig](#)

Hey baby, what's that sound
I make a few steps and I fall on the ground
It's a long shot but darling I couldn't love you more.
Come on, come onHey baby, give it a try
I can find an answer if you wanna know why
I know I'm a nerd but give another play to this song
Come on, come onHow does it sound if we spend the night out?
How does it sound if we spend the night out?We spend the night outHey baby, what's that sound
I make a few steps and I fall on the ground
It's a long shot but darling I couldn't love you more.
Come on, come onHey baby, give it a try
I can find an answer if you wanna know why
I know I'm a nerd but give another play to this song
Come on, come onHow does it sound if we spend the night out?We spend the night outHow does it sound if we
spend the night out?
How does it sound if we spend the night out?Come on, come onHow does it sound if we spend the night out?
How does it sound if we spend the night out?We spend the night out
