

Anybody

Bad Things

I get up just to bring you down
I never loved you so
don't bleed it out, Just let it go
And Open up your eyes girl
Why'd you ever care at all
Stop, don't talk bitch why you running
Away you got no where to go oh
Feelings don't hold me
Now I see you're
feeling the same as
As when I lost the leash
I can't contain your dreams
Is anybody here
Is anybody here
I can feel it coming
I've been down
Down that train
And my love you've been up for days
Just to find a way, to open up your eyes
See we never were at all
Stop, don't talk shit just bite your tongue
And let it fall.
OH you gotta let it fall Feelings don't hold me
Now I see you're feeling the same as
As when I lost the leash
I can't contain your dreams
Is anybody here
Is anybody here
I can feel it coming Is anybody here
I can feel it coming
Does anybody care
I can hear them calling
Does anybody care
Is anybody here
Is anybody here
