

Eyes of a Stranger

[Payolas](#)

Can I touch you to see if you're real?
Cause in nothing theres something I feel
Will my heart take the strain
Or will it break down again? In your lips I sense a danger
You've got the eyes of a stranger Have I been sleeping for all these years?
Is it magic that makes you appear?
When you walked in the room I felt my heart race
But knew I'd been fooled when I looked at your face In your lips I sense a danger
You've got the eyes of a stranger
In your lips I see a danger
You've got the eyes of a stranger In your lips I sense a danger
You've got the eyes of a stranger
In your lips I see a danger
You've got the eyes of a stranger You've got the eyes of a stranger
You've got the eyes of a stranger
You've got the eyes of a stranger
You've got the eyes of a stranger
