

Let Your Love Out

Luke Benward

You get what you give yeah
I heard it a million times before
What does it mean?
I haven't seen any love when I walk out my door
Always on the go, no time to show
Nobody how you really feel
The clock is ticking
No over thinking
Now's your chance to stop and get realHey now!
Jump around
Come on everybody, you gotta let your love out!
Get down, scream and shout
So the whole world can hear you
Hey now!
Make it count
Gotta show you, yeah gotta get your head down
Get loud, it's a beautiful sound
When everybody sing
Let your love out!You always come in it
If you give a minute away to somebody
I can only imagine
The magic that kindness can make everyday
You can have it your way
That's what they say
But I don't buy it anyway
The clock is ticking
No over thinking
Now's your chance to make your storyHey now!
Jump around
Come on everybody gotta let your love out
Get down, scream and shout
So the whole world can hear you
Hey now!
Make it count
Gotta show you, yeah gotta get your head down
Get loud, it's a beautiful sound
When everybody sing
Let your love out!Everybody got it so
Come on and give it

You never gonna get it if
You don't give it away
(repeat 3x)
Hey now!
(jump around)
Make it count
'Cause I don't see any love
When I walk out my doorHey now!
Jump around
Come on everybody gotta let your love out
Get down, scream and shout
So the whole world can hear you
Hey now!
Make it count
Gotta show you, yeah gotta get your head down
Get loud, it's a beautiful sound
When everybody sing
Let your love out!
(repeat 1x)
