

The Cure

India.arie

Ooh yeah, ooh yeah
Hush, little baby, don't you cry
Yeah, I know she hurt you
But it ain't the end of your life
'Cause I'm right here waiting with open arms
I know you might feel shattered
But love should never bring you harm
So consider this a moment
That's defining who you are
And I can fix what's broken
And here's how I'll start
Just come with your heart and leave the rest to me
And I promise that we'll be and I'll be the cure
Show me where it hurts
And I know that I can be the medicine you need
Baby, I'll be your cure, your cure, yeah, yeah, yeah
I can see she left you with your heart wide open
But I can be your shelter when the winds starts blowing
So don't be afraid of what's in front of you
'Cause I know I'm strong enough to carry us through
So consider this a moment, that's defining who you are
And I can fix what's broken and here's how I'll start
Just come with your heart and leave the rest to me
And I promise that we'll be and I'll be the cure
Show me where it hurts
And I know that I can be the medicine you need
And I'll be your cure, I'll be the cure
And I'll be your cure, I'll be the cure
I'll be your healer in my shining armor
Just let me protect you, that's what I'm here for
My love is a healer if you let me near you
Reach out and touch me, just let me restore
Just come with your heart and leave the rest to me
And I promise that we'll be and I'll be the cure
Show me where it hurts
And I know that I could be the medicine you need
And I'll be your cure
Just come with your heart and leave the rest to me
And I promise that we'll be and I'll be your cure

Show me where it hurts
And I know that I can be the medicine you need
Baby, I'll be your cure, I'll be the cure
I'll be your cure, yeah, yeah, I'll be the cure
My love is strong enough, I'll be the cure
Whenever you call, yeah, I'll be the cure
I am the cure
