Our Time

Sling Seed

Hope you like the show
Hope you like the show

Our time is coming
Our time's arrived
Our time is coming
Our time's arrived

Gonna leave the show tonight
Gonna fix the satellite
Gonna leave the show tonight
Gonna fix the satellite

All the stars are shining
Revolutions in their head
Lazarus is rising
Raise the dead

Our time is coming
Our time's arrived
Our time is coming
Our time's arrived

Gonna leave the show tonight
Gonna fix the satellite
Gonna leave the show tonight
Gonna fix the satellite

All the stars are shining
Revolutions in their head
Lazarus is rising
Raise the dead

Our time is coming
Our time's arrived
Our time is coming
Our time's arrived
