

# Underground

## MOTHXR

Earth spinning like my head  
In the beginning  
More than matter  
I'm gagged and bound  
No matter  
Take me high  
Take meOh  
She's underground (repeat)  
Who's winning  
Who's in bed  
Please forgive me  
Moon in Cancer  
But without sound there's no answer  
Take me high  
Take meOh  
Chorus  
In the beginning I see the end (repeat outro)
