

Beyond the Farm

[Nora Jane Struthers](#)

Beyond the farm you will always be a stranger
You will face all kinds of dangers and for what?
Beyond to the farm you'll be locked inside forever
And you will not feel the sunshine or the rain or my touch
Beyond the farm you think you'll be discovered
And your dreams will run like a herd to the oasis of your heart
Beyond the farm you think you'll never need a bandage
And your hands will not be branded by the proof you've done your part
You're just a girl so you can't see the way the world turns out to be
A place where you can love, but you can't trust
Cause sometimes bad things happen to the best of us
Beyond the farm your postcards send me reeling
Hard to believe the places you've seen since you left me
Back on the farm with horses won't eat their hay
The ducks and chickens they won't lay and I miss you with every breath
You're just a girl so you can't see the way the world turns out to be
A place where you can love, but you can't trust
Cause sometimes bad things happen
Sometimes bad things happen
You're still my girl so you can't see the way the world turns out to be
A place where you can love, but you can't trust
Cause sometimes bad things happen
Sometimes bad things happen
Sometimes bad things happen to the best of us
