This Ladder Is Ours

The Joy Formidable

Let's take this walk, it's long overdue
And let this loathe crawl over you finally
Let's take this walk, it's overdue

Let's sit and talk and slow things down
Just be our old selves again finally
Let's take this walk
Let's take a walk to somewhere pretty

This ladder is ours
This ladder is ours
We can be anybody else
Hold on to the fringe
Jump through from the past

This ladder is ours
This ladder is ours
This is where everybody turns
Out right in the end
Can you play a part?

See us walking through the sunshine
Ask me where I've been
Back to Ire
Back to desire
This is where it all begins

This ladder is ours
This ladder is ours
We can be anybody else
Hold on to the fringe
Jump through from the past

This ladder is ours
This ladder is ours
This is where everybody turns
Out right in the end
Can you play that part?

This ladder is ours

This ladder is ours
This ladder is ours
This ladder is ours
This ladder is ours
This ladder is ours
This ladder is ours
This ladder is ours
