Tell Me Where It Hurts (Orchestral single edit)

Garbage

What is my day going to look like?

What will my tomorrow bring me?

If I had X-ray eyes, I could see inside

I wouldn't have to predict the future I wish that you would do some talking

How else am I to know what you're thinking?

If only people would say what it really was

What it really was, what it really was that they wantedTell me where it hurts and to hell with everybody else

All I care about is you and that's the truth

They don't love me, I can tell

But you do, so they can go to hellDid they ever give you a reason

To believe in something different?

If you're looking for love, for what it's worth

I've plenty of it lying around here somewhereIf you are looking for disappointment

You can find it around any corner

In the middle of the night I hold on to you tight

So both of us can feel protected Tell me where it hurts and to hell with everybody else

All I care about is you and that's the truth

They don't love me, yeah, I can tell

But you do, so they can go to hellI've been loved but I didn't know how to feel it

And I've been adored but I don't know if I ever believed it

I've been loved my whole life but I didn't know how to take it until youSo tell me where it hurts, to hell with

everybody else

All I care about is you and that's the truth

They don't love me, yeah, I can tell

But you do, so they can go to hell

But you do, so they can go to hellTell me where it hurts

Tell me where it hurts

Tell me where it hurts nowTell me where it hurts

Tell me where it hurts

Tell me where it hurts
