

Hallelujah, Goodnight!

Richard Swift

What has been thought?
What has been said?
What has been done? I saw you write it all down
I couldn't read what you wrote
I couldn't read what you wrote Trouble ahead
Trouble behind
Trouble below I saw you write it all down
Cried over every note
Cried over every note Lover leaving, now you know
It isn't for a laugh, it isn't for a show
Hallelujah, goodnight What has been thought?
What has been said?
What has been done? Somebody's writing it down
Cry over every note
Cry over every note Lover leaving, now you know
It isn't for a laugh, it isn't for a show
It isn't for a laugh, it isn't for a show So you tried to leave it
But now you know
It isn't for a laugh, it isn't for a show
Hallelujah, goodnight
