Just Like the First Time

Kevin Toney

I used to think
That I had left you far behind
But time has never quite erased you from my mind
My heart keeps telling me you're gone
Can't re-write history
Move on
Just as I know what I should do
Like a bolt from the blue
In walks youChorus
Right back the where I started
Broken-hearted
Never thought I could feel this way
Just like we never parted
Look what you've started
Now you're taking me over
It's just like the first time againI used to dream
Some other love would come along
Help me to face the facts
Forget that you were gone
My heart won't listen when they say
You can't go back to yesterday
Somehow I broke the golden rule
Like a bolt from the blue
I'm falling for youChorusMy heart keeps telling me you're gone
Can't re-write history
Move on
Somehow I broken the golden rule
Like a bolt from the blue
I'm falling for youChorusJust like the first time
That you're taking me over
It's just like the first time again
