Boys Will Be Out for a Fight

The Filthy Souls

Well hello hola my dear old friend you're now the family disgrace
You left your parents reeling with there crimson face
You were just young and foolish small and weak
Not the ruin of the neighbourhood the villain of the street

The boys will be out for a fight and the girls will be dancing tonight
The same old village and the same old trap the same old tongues and the boys will be out for a fight

They thought it told it all when you're heading for a fall the fingers pointing the tongues on fire my young dear friend they said you won't get far

The boys will be out for a fight and the girls will be dancing tonight
The same old village and the same old trap the same old tongues and the boys will be out for a fight

Well the bad news hit the waves today they said you'd gone and thrown your life away

The boys will be out for a fight and the girls will be dancing tonight
The same old village and the same old trap the same old tongues and the boys will be out for a fight
