

I Remember When

Terrence Howard

I remember when
i was just a dude you knew from back then
I would question you with who, what, where, when
true thought there in
but you were scared of him
say coulnt do what you can
i'm telling you
i remember when
we were at the store we kicked the guard in
wanted somthing more than food stamps could lend
and fruit flys bring _____
and you stole we ran
the rules just have to bend
i'm telling you
i remember when
i was just a dude walked to school with boy you called friend had some problems and i talked you through
time and time again you would ask me for
i was more like come on climb in
the boy you called friendsometimes i pretend
that it's after school
and your in the room with me and my ken
we was acting a fool
ignoring the rulesand you were kinda him
and you told me then
i was just a friend
i'm telling you
i remember wheni was just a dude walked to school with boy you called friend had some problems and i talked
you through
time and time again you would ask me for
i was more like come on climb in
the boy you called friend (twice through)
