Lukewarm

Nural

Got your back, you've got mine,
We take up arms, fight along each other's side
You're scared and that's all right,
We're gonna make it, I know we'll make itAre you with me or them, yeah
Cover me I'm going inHey, whose side are you on anyways?
No in between, no lukewarm
So, please, you're either for me or against meYou're treasonous, I know
A giveaway when you let true colors show
You're safe with them for now
You better hail me when I come aroundHold your breath, let it out (ha)
Cover up all of your doubtHey, whose side are you on anyways?
No in between, no lukewarm
So, please, you're either for me or against me
(2x)
Or against meI've been there and I've done that
Oh you know I have
Been there and I've played that game
Everyone's a winner
Believe in me as I once believed in you
Together we can't loseHey, whose side are you on anyways?
No in between, no lukewarm
So, please, you're either for me or against me, yeahHey, whose side are you on anyways?
No in between, no lukewarm
So, please, you're either for me or against me
Or against me
Or against me, yeah
Oh
