Take Me Home

Wayne

ask your questions here
i'll tell you what i know
or at least what i think is so
ask me for my help
i'll give you what i can
but don't always assume that i can lend a handif i smile that's entertainment
and if i frown don't say a word
cause it's just my way and i'm not changing
after all these years in this worldi'll tell you right up front
when i gotta go
cause i've got people waiting and things to do
so take me home
i've got places to be and things to see
so take me home
