

Love Like Jesus

PawnShop kings

LOVE LIKE JESUS

(Scott Owen, Joel Owen, Phillip LaRue) i wanna walk this out with my head held high

i wanna see the world looking through your eyes

i wanna know that you're leading me

i wanna do what you ask of me

i wanna walk this out with my head held high and love (the forgotten ones)

and love (the children)

and love (the friendless)

i wanna love like jesus i wanna believe in all the things you say

i wanna trust the promises that you have made

i wanna know that you're leading me

i wanna do what you ask of me

i wanna walk this out with my head held high and love (the forgotten ones)

and love (the children)

and love (the friendless)

i wanna love like jesus and love (the forgotten ones)

and love (the children)

and love (the friendless)

i wanna love like jesus and when my life is good and done

i wanna find my way back home

and when my light fades away

i wanna hear the good lord say

well done

well done

i wanna love like jesus i wanna believe the things my eyes can't see

i wanna draw my water where the well runs deep

i wanna know that you're leading me

i wanna do what you ask of me

i wanna walk this out with my head held high and love (the forgotten ones)

and love (the friendless)

and love (the children)

i wanna love like jesus and love (the forgotten ones)

and love (the children)

and love (the friendless)

i wanna love like jesus when my life is good and done

i wanna find my way back home

when my light fades away

i wanna hear the good lord say

well done, well done

well done, well done
well done, well done
i wanna love like jesus
well done, well done
well done, well done
well done
i wanna love like jesus
