

Take Us Away

Wiretree

i donâ€™t know what youâ€™re gonna be
donâ€™t what Iâ€™m gonna see
all i know is i hope youâ€™ll take it from me

walk around the same old town
i see your head is down and bound
donâ€™t you see the clouds moving along

pre-chorus

donâ€™t know what weâ€™re gonna find
give me love give me cheap wine
in the end love will take us away

...oh oh oooh

thereâ€™s no right, and thereâ€™s no wrong
keep it fast and keep it strong
i can see the moon light up your eyes

lets lay on down turn out the light
sit and talk throughout the night
let the morning come to move us along

donâ€™t know what weâ€™re gonna find
give me love give me cheap wine
in the end love will take us away

...oh oh oooh

mull it on over
i know you find a way
think it on over
good thing will come your way
