Wolfman

The Front Bottoms

[Verse 1]
Deep and slow, that's how it goes
If anyone asks, yeah I already know
Cause I got this pain in my chest
Every time I swim to consciousness
And I misspelled every word perfectly
Every mistake made was purposely
And my head is pounding to the beat of my heart[Chorus]
You are a broken heart tattoo
I'll have forever on my chest
For a love that I have lost
But never could forget[Verse 2]
Say what you have to say
Try not to cry
This is just not what you wanted
At this point in your life
It's so hard to stay
When all you want to do is ride
I totally get you, I was a birdcage
And you were meant to fly[Chorus]
You are a broken heart tattoo
I'll have forever on my chest
For a love that I have lost
But never will forget[Bridge]
I shook 'til I came out of it [x4]
Let's sit down, we'll sit down proud
We'll sit down proud
We'll sit down[Verse 3]
Nothing matters, the importance of nothing [x3]
That's what you taught me
When I was barely listening
Nothing matters, the importance of nothing [x3]
Nothing matters, nothing matters
