

Keep It Healthy

Warpaint - Disco//Very

I could not believe
What I was seeing
There's no words, seeings believing
How could we
When did we
Forget where we came from
Touch the stars feel what we're made of I could not believe
What you had said
With all the experience
Was your crown a credit
You were there, you were there
When I first believed it
I first laughed
Said I was dreaming Ooh Come on, Come on baby
Lets get going
There's no need to wear your clothing
Just take my hand
Take my heart
Into this moment
To where you understand
And where you believe it In my dreams we are awake
