

To Everyone In All the World

Raffi

To everyone in all the world,
I reach my hand I shake their hand.
To everyone in all the world,
I shake my hand like this.All all together,
The whole wide world around,
I may not know their lingo,
But I can say by jingo,
No matter where you live we can shake hands.All all together,
The whole wide world around,
I may not know their lingo,
But I can say by jingo,
No matter where you live we can shake hands.{french?}To everyone in all the world,
I reach my hand I shake their hand.
To everyone in all the world,
I shake my hand like this.All all together,
The whole wide world around,
I may not know their lingo,
But I can say by jingo,
No matter where you live we can shake hands.
