When I'm With You

Grynch

If I could write about the way you make me feel
I wonder what I'd write
'Cause of all the words there are to use
That never say it right
When I only have a minute and It'd take a thousand hours
And some new words too
But my nights are never blue
And I don't mind the rain when I'm with you
When I'm with you the songs are already written
Melodies turn into words nobody's ever said
When I'm alone the only thing I can say that's true
Is my nights are never blue

And I don't mind the rain when I'm with you
So if I could write about the way you make me feel
I don't know what I'd write
'Cause of all the words there are to use
That never say it right
When I only have a minute and It'd take a thousand hours
And all those new words too
But my nights are never blue
And I don't mind the rain when I'm with you
