

# Asshole

## Beck

Your brains went black, when she took back her love  
And put it out into the sun, the birds did fly  
When the heavens all went dry  
And the cigarettes were smoking' by themselves  
She'll do anything, she'll do anything  
She'll do anything to make you feel like an asshole  
Call her name, she looks the same as you  
Question marks stretched across her skin  
She dangles carrots, makes you feel embarrassed  
To be the fool you know you are  
She'll do anything, she'll do anything  
She'll do anything to make you feel like an asshole
