Beat's So Lonely

Charlie Sexton

The beat's so lonely, I'll bet it's lonely at the top
She hesitates but the beat will never stop
Wanting him only but the people never
See her heart burning, that's the secret that she keepsCome on, baby, you know there's something missing
Don't find nothing, no more coincidences
Ready, baby, look in these eyes and you will see
The things will happen but only if they're meant to beThe beat's so lonely, I'll bet it's lonely at the top
(So lonely)
At the top
(So lonely)She said, "The beat's so lonely if you let it be that way"
She can't tell the difference anyway
She keeps holding but she's scared to say
She'd pay dearly for the answers of her dayAll answers of her, answers of her daysThe beat's so lonely as she waits so patiently
Her heart's yearning, how she's learning to see
And he's not hurting but he wouldn't mind to be
She still sees him, she sees him interestinglyCome on, baby, you know there's something missing
Don't find nothing, no more coincidences
Ready, baby, before you give up all you've got
You've got to come closer, you've got to give it one more shotThe beat's so lonely, I'll bet she's lonely at the top
(So lonely)
At the top
(So lonely)She said, "The beat's so lonely if you let it be that way"
She can't tell the difference anyway
She keeps holding, but she's scared to say
She'd pay dearly for the answers of her dayAnswers of her day, answers of her, ow, daySo lonely, so lonely, so lonely, so lonely
So lonely, so lonely, so lonely, so lonelyWell, come on, baby, you know there's something missing
But don't find nothing, no more coincidences
Ready, baby, before you give up all you've got
You've got to come closer, you've got to give it one more shotThe beat's so lonely, I'll bet she's lonely at the top
(So lonely)
At the top
(So lonely)So lonely, so lonely, so lonely, so lonely
So lonely, so lonely, so lonely, so lonely
So lonely, so lonely
