# Fool 4 Love

## Shanti

you said today we'd go away run off to someplace new start all over together just me and you you swept me off my feet made me feel so complete was i a fool to love you, oh a fool 4 love a fool in love a fool 4 loving you today you had to go away find a place to meditate on finding out what's really true you swept me off my feet made me feel so complete was i a fool to love you, oh chorus (x2) today i sit and contemplate the life that i've had tears i've cried and all the sighs you swept me off my feet made me feel so complete was i a fool to love you, oh chorus (x4) you said today we'd go away run off to someplace new start all over together just me and you.
