# Relentless

## Pentagram

Now I don my electric axe
I'm gunna lay you on your back
All psyched and ready to go
Take you to hell and won't say helloWalk with me through the black house
What a wild trip You're such a louse
Feel my power as it prevails
As you listen to sinister talesWhy do you hold your head so low
Are you afraid of your mystical soul
Feel the metal and feel it deep
Out of the walls flow true beliefWhen in doubt what do you do
Do you know how to see it through
Never in your life will he forgive
The wasting of your soul that he once gaveOh no!Do you know my name I doubt if you do
But you'd be suprised if I told it to you
My looks are deceiving I'm not what I seem
For I've got more power than you may believeAaaah take me
And its so relentless oh yeah
So relentless
