Ocean Wide

The Afters

Look outside, it's already light
And the stars ran away with the night
Things were said, words that we'll try forget
It's so hard to admitI know we made mistakes
I see through all the tears
And that's what got us hereIf love is an ocean wide
We'll swim in the tears we cry
They'll see us through to the other side
We're gonna make itWhen love is a raging sea
You can hold on to me
We'll find a way tonight
Love is an ocean wideI'll stay right here, it's where I'll always belong
Tied with your arms
Days like this I wish the sun wouldn't set
I don't wanna forgetWhat made us feel this way
You see through all my fears
And that's what got us hereIf love is an ocean wide
We'll swim in the tears we cry
They'll see us through to the other side
We're gonna make itWhen love is a raging sea
You can hold on to me
We'll find a way tonight
Love is an oceanWide enough to forget
Even when we think we can't
Think we can'tLove is an ocean wide
We'll swim in the tears we cry
They'll see us through to the other side
We're gonna make itWhen love is a raging sea
You can hold on to me
We'll find a way tonight, we'll find a way tonight
Love is an ocean wide
Love is an ocean wide
